Supervisors Study Jail Costs In Oct. Meeting

The Crawford jail open only until a nearby jail is available for use. Faced with this news, the supervisors feel the new jail is a must.

The voters will be making the choice, voting "Yes" to increase taxes \$1.00 for every \$1,000 of valuation toward a new jail or voting "No" to force the levy of a tax that the legislature not found fair but just to pay the added cost of prisoner care.

William T. Miller, Chairman of the Board, stated that from information gathered by the law firm of Gaylor and Roscomman, it will be tragic if the voters vote other than "Yes". Mr. Miller appealed to the voters to investigate the situation and then let reason be their guide.

Polio Clinic Planned For Next Wednesday

For polio clinics to be held in the school building, all children eligible for these clinics are those 12 months of age through high school who have never had any polio shots. These children will be given only their first two injections through this clinic service at a cost of 50c per injection, since the health department no longer receives free vaccine. This fee will be collected at the time of the clinic.

Parents who have children under any grade in school must fill out and sign the parent request card before their child can be given the First Polio Injection at school. Parents who have preschool children between the ages of 12 months and five years can fill out the request card at the clinic.

The clinic for the Graying area will be held at the Graying High School on Wednesday, October 22nd at 1:30 P. M.

Kiwanian Pushes Get Out The Vote Campaign

The Kiwanis Club of Grayling will spearhead a "learn the issues register, and get-out-the-vote"

campaign for this year's election called Ballot Battalion, it was announced today by J. Lorne Douglass, club president.

The Ballot Battalion, which is strictly non-partisan, is being carried on by many of the 4,500 Kiwanis clubs in the United States and Canada. In announcing the 1958 Ballot Battalion, J. Lorne Douglass said that the Ballot Battalion campaigns in the past have contributed materially to large turn-outs of voters in Los Angeles and Miami, a good portion of the voters in the large turn-outs of voters went to Ballot Battalion activities. Ballot Battalion was also given part of the credit for the record turn-outs of voters in the most recent national election.

Kiwanis International President H. Park Arnold, of Glendale, California, set the tone for this year's Ballot Battalion campaign when he said from the Chicago General Office of Kiwanis:

ADN'T IT THE TRUTH ?
If you want to live in the kind
of a town
That's the kind of a town you

like
You needn't slip your clothes
in a grip
And start on a long, long hike
You'll find elsewhere what you
left behind
For there's nothing that's
really new;
It's a knock at yourself when
you knock your town
You find it all the same

It isn't your town - it's yours
Real towns are not made by
men afraid
Lest somebody else get ahead;
When everyone works and
nobody shirks
You can raise a town from the
dead
And if while you make your
personal stake
Your neighbor can make one

too,
Your town will be what you
want to see,
IT ISN'T YOUR TOWN,
IT'S YOU.

National Bear Queen.
Rainy weather slowed and stopped the bear hunt on Saturday, but the hunt with eight dogs and twelve guides aiding the record number of 57 women hunters finally flushed the prize.
The Flint Queen Mary Ann was crowned as National Bear Queen.

the tracking easier for the dogs and also allowed more quiet movement in the woods.

Mrs. Mabel Dingman, originator of the hunt said that all 57 who were in this year's chase were most enthusiastic and that there was no question but that the hunt would be continued each fall.

State May Qualify For \$4 Million Under Federal Education Act

MICHIGAN EDUCATION CAN BE \$4,000,000 richer by June 30, 1969 if the state qualifies under all provisions of the new Federal Defense Education Act. The law was enacted with this session of Congress.

And those who fought to keep federal control from local school systems can have a victorious sigh of relief too. A guarantee against "control" follows the law. Tradition was written into the law. This lack of restriction was referred to by a leading educator as "in many years."

It brought cheers too from Dr. Lynn M. Bartlett, state superintendent of public instruction, and most Michigan educators. Their simultaneous campaign to safeguard local control was successful.

The key clause reads: "Nothing contained in this act shall be construed to authorize any direction, supervision, or control over curriculum, program of instruction, administration, or personnel of any educational institution or school system."

No professional educator missed its significance.

In Michigan, where two-thirds of the state sales tax and other money raised by the state goes to the schools, lawmakers and others feel free to make demands upon the school system.

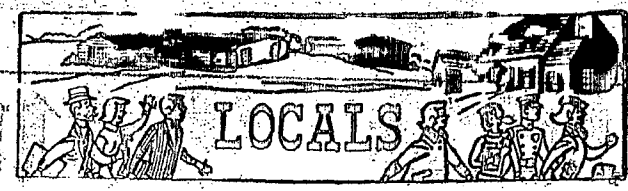

Virtually every session of the legislature brings struggles over whether the schools shall teach certain forms of American history, civics or religion. One of the toughest battles of the 1958 session centered on the compulsory reading of the Holy Bible.

The "control" follows dollar practice is a modern form of the ancient "dollar diplomacy," prevalent especially during the early 1900s when American foreign aid usually carried instructions how it was used.

Michigan will get slightly over \$4,000,000 in Federal aid this year if all goes well. Here are some factors to be considered.

First, Bartlett said he believes the legislature must give its approval before any Federal aid can be accepted.

At least one part of the grant must be matched 50 - 50 by the

Ford brings Thunderbird elegance to the low-price field with

THE WORLD'S MOST BEAUTIFULLY PROPORTIONED CARS

These Fords you've got to try! For let's be new Thunderbird... center, the new Custom 500 Tudor Sedan... and above, the 9 Passenger Country Sedan.

AWARDED THE GOLD MEDAL
for beautiful proportioning
by the Comité Français de l'Elegance
at the Brussels World's Fair

Styled, powered and priced for today's driving! There never was a Ford like this before! Its classic new design was awarded the Gold Medal of the Comité Français de l'Elegance at the Brussels World's Fair! With new Thunderbird flavor in each lively line and tastefully new interiors, these 59 Fords are beautifully proportioned for elegant driving.

Power, performance and economy are served up in new proportions, too. All standard Ford engines—Six or Thunderbird V-8—thrive on regular gasoline at regular prices. You save up to 5 cents on each gallon! There's a new aluminum muffler that normally will last twice as long as conventional mufflers used on other cars... full-flow oil filtration that lets you change oil at 4000 miles instead of the 1000 often recommended... new Tyrex cord tires for greater economy and safety... a brilliant new Diamond Lustre Baked Enamel Finish that's so durable you won't have to wax it ever... and two new economy power-transmission teams that will bring you savings automatically. That's why we say, for '59, Ford is truly a masterpiece of underpricing!

NEW economy team Number One! Get all the high performance of a completely new Fordomatic Drive teamed with a Six or Thunderbird V-8—at a price that puts automatic driving within everyone's car budget. It's a simplified Fordomatic with nearly 1/3 fewer parts.

NEW economy team Number Two! Take Ford's versatile new Cruise-O-Matic Drive, add the responsiveness of Thunderbird Special V-8 power and you have the last word in automatic driving plus the "built-in" overdrive savings of an economy-gear axle.

Altogether NEW in everything you can see, feel or touch!

LET'S STOP THIS WASTE ON MICHIGAN HIGHWAYS

The Michigan State Highway Department has announced a decision which vitally affects you as a taxpayer and user of the state's highways.

The Highway Department plans to pave 192 miles of new interstate and primary roads with nothing but blacktop. These will be main highways carrying increasingly heavy traffic loads — the kind of traffic which demands a portland cement concrete pavement.

BUT THE HIGHWAY DEPARTMENT
PLANS NO CONCRETE AT ALL FOR
THESE IMPORTANT EXPRESS
HIGHWAYS.

The Highway Department persists in using blacktop in spite of the fact that —

- Many Michigan cement workers are unemployed.
- A large proportion of the blacktop raw ingredients will be purchased from out-of-state petroleum companies.
- Portland Cement Concrete costs less in the long run because it is easier, less expensive to maintain. (21 years experience in 24 states prove that concrete costs barely half as much to maintain as blacktop.)
- Concrete pavement is safer for you to drive on. Its gritty surface grips better when wet. Its light color makes night driving easier and safer.

THIS IS YOUR FIGHT!

YOU will have to pay part of the cost of construction and ALL of the maintenance with your state taxes.

YOU have to drive on these highways. Your safety and comfort will be greater with portland cement concrete pavement.

YOU will give employment to Michigan's cement workers by defeating this plan.

WHICH DO YOU WANT - FLEXIBLE BLACKTOP OR LONG-LASTING PORTLAND CEMENT CONCRETE?

Express your opinion on this vital subject by writing today to:

Gov. G. Mennen Williams
CAPITOL BUILDING
LANSING, MICHIGAN

Mr. John C. Mackie
STATE HIGHWAY DEPARTMENT
LANSING, MICHIGAN

* You are most directly concerned with a section of new road to be built from Clare to Indian River. Think of the traffic this 115-mile stretch of highway will have to carry! That's CONCRETE traffic NOT blacktop.

AMERICANA

Middleboro, N. H. 12-17

Pinnaole Rock area overlooking Middleboro, Ky.

One of the few Kentucky cities built on the original "Wilderness Road," Middleboro occupied a prominent place in the history of the nation. Incorporated in 1890, Middleboro was an English community established with English capital.

Nearby Cumberland Gap Pass is known to every student of American history. The area was recently in the news when the cooperating states of Kentucky, Tennessee and Virginia provided about 20,000 acres of land for the establishment of Cumberland Gap National Historical Park.

The Cumberland Gap Pass is the most significant physical feature of the famous Wilderness Road, which opened Kentucky in Revolu-tionary times. The altitude of the pass is about 1830 feet, about 1,000 feet lower than the twin portals in the Cumberland Mountains range through which it passes. In 1750, Dr. Thomas Walker and a group of surveyors entered from Virginia and built a log cabin on the Cum-berland River — the first cabin erected in Kentucky. Daniel Boone first passed through the Gap in 1769. Boone and a party of 30 men cut out the road from Cumberland Gap to a settlement on the Ken-tucky River at Boonesboro. George Rogers Clark used the road in coming out of Kentucky to recruit supplies and men for his expedition against the British and Indians.

In 1897, a visiting Canadian lum-berman, Alex A. Arthur, interested English capital in the steel indus-try of that country in the Cumber-land Gap area. A syndicate pur-chased 60,000 acres of land, built Middleboro, named for Middle-borough, England, and \$20,000,000 was poured into the area in the de-velopment of railroad, the big tunnel underneath Cumberland Gap and a playground for tourists at nearby Harrogate, Tenn., which became a famous spa of the South. English capital failed in 1892, and with the panic of 1893, so did the development of the area. The story of this boom and collapse is one of the most fantastic and exciting in the annals of American industry.

LOCALS AND ABOUT TEENAGERS

This teenage girl has a problem not unusual among the members of the younger set. She writes: "My real friends tell me I have the reputation of being a 'snob,' and I can't understand it. I am not 'uppity' at all. In fact, I am a bit shy and do not always know what to say and do when I am with people that I do not know very well."

Some teenagers who are shy and reserved look the part. Others cover it so well that their lack of "outwardness" is taken by others to represent an attitude of indifference and unfriendliness.

Dan Hoelsi celebrated his 83rd birthday Saturday, October 11, when Mrs. Hoelsi invited several in to a luncheon at the Hoelsi home. Out-of-town guests were daughters Mrs. Byron Soule of Houghton Lake and Mrs. Herbert Kieckamp of Saginaw, and Maurice Blondin of Bay City.

Richard Snyder and Esbern Hanson, Jr., of Bay City were at the St. Helen hunting club Saturday. Mrs. Snyder accompanied them and spent the day with her mother, Mrs. Oscar Hanson.

Mr. and Mrs. W. E. McCullough of Rochester, Mich., spent several days at their home here leaving Tuesday. Weekend guests were Miss Julia Grant and Mrs. Florence Bevier of Detroit, and Mr. and Mrs. James Podrea of Rochester, Mich.

CANFIELD - FISHELL
WED SEPT. 20th

September 20th, 1958, was the date of the marriage of Miss Christine L. Canfield, daughter of Mr. and Mrs. John Canfield, Jr., of Route 1, Grayling, to Daryl L. Fishell, son of Mr. and Mrs. L. O. Fishell of Roscommon. The couple exchanged vows at six o'clock in the evening at the Michelson Memorial Church in Grayling, with the Rev. R. C. Puffer performing the ceremony before one hundred guests. Mrs. T. P. Peterson, organist, accompanied Mrs. Lee Charron, who sang "Because" and "Oh, Promise Me." Vases of gladioli made a colorful setting for the event.

Miss Canfield came down the aisle on her father's arm, dressed in a ballerina length white wedding gown and veil. She carried red roses.

The bride's sister, Miss Hazel Canfield, was maid of honor. She was dressed in a pink ballerina length gown with net shoulder covering, and carried violet gladioli.

Stanley Fishell, brother of the bridegroom, was best man. Mrs. Canfield wore a light blue suit, while Mrs. Fishell chose a grey dress. Both wore violet gladioli corsages.

The reception following the marriage was held at the American Legion Hall, which was decorated with blue streamers tied with large white bows, and fall flowers.

The newlyweds honeymooned on a short trip into Canada, the bride choosing an aqua suit for her going away ensemble. They are at home to their friends in Roscommon. Mrs. Canfield attended Grayling schools, graduating in June of 1958 from Grayling High School. Her husband attended high school at Corunna and Roscommon, and also saw service in the army.

Out-of-town guests attending were from Eaton Rapids, Verno, Orono, Hancock, Roscommon, McBain, Mt. Rose, Elletts, and Wayne.

Mr. and Mrs. Russell Carlson and children of Pontiac visited the Frank Servens wedding before last, also spending some time with friends in Lewistown.

Mr. and Mrs. Ernest Larson and Jerry drove to Albion on Saturday to pick up their daughter Judy, continuing on to Hillsdale for the Hillsdale-Albion football game. Mr. Larson spent the night at Dearborn with Mrs. Larson's sister and family, the Nelson Vollmers, and took Judy back to college on Sunday, then home.

Mr. and Mrs. John Eickes, formerly of Cass, Grayling, visited the Ernest Larsons for several days last week.

THE WORLD OUTDOORS

A REVIEW of the 85th Congress shows that conservationists and sportsmen were successful in attaining legislation aimed at protection, as well as management of the nation's soil, forest, water and wildlife resources.

The popular national waterfowl refuge program will get a big boost beginning July 1, 1960, when virtually all of the receipts from the new duck stamp will be channeled into an accelerated program for the purchase and lease of wetland areas needed to maintain desirable populations of ducks and geese.

A resolution passed by Congress in the earlier law which permitted diversion of a major part of the duck stamp funds for routine operating expenses of the U.S. Fish and Wildlife Service. With anticipated new revenue for purchasing and leasing of wetlands, the Fish and Wildlife Service believes it can attain refuge acreage goals in about 25 years.

Enactment of a pesticides research law and the appropriation of \$125,000 to get the program underway this year will permit the Fish and Wildlife Service to give immediate attention to a pressing problem. This problem was recently brought to wide public attention in the South where the use of insecticides and other poisons against the continuing spread of the dangerous "fire ants" brought cries from sportsmen that wildlife were being destroyed as well as "fire ants." The new law opens the way for research into the ways and means of reducing the alarming loss of birds, mammals and aquatic life that follows large-scale insect and plant pest control operations.

Mr. and Mrs. Russell Carlson and children of Pontiac visited the Frank Servens wedding before last, also spending some time with friends in Lewistown.

Better low-cost roads for Michigan...

All-weather soil-cement stays smooth-riding years longer

**75% of the pavement materials are free
with modern soil-cement**

Here's the pavement that lasts for 20 years and more—far longer than any other low-cost paving material. Built with soil, portland cement and water mixed right on the road and rolled solid. A thin bituminous surface is then added.

Soil-cement is made from almost any soil at hand. Savings right from the start! You can drive on a precision-built pavement that's

stronger inch for inch than any other pavement short of concrete. Yet initial cost is low. Upkeep costs stay low. No softening, no spring break-up.

Paving is quick and easy. Contractors have built as much as two miles a day. Soil-cement is strong right from the start, can even take light traffic the same day it's laid.

Developed in 1935, there are already over 12,000 miles of soil-cement pavement in serv-

ice. It's the low-cost answer to road problems everywhere.

Gets stronger with age
Core cut from soil-cement

actually doubled in 14 years.

Detroit Epidemic Shows Need Of Vaccination

The current polio epidemic in Detroit, Mich., is a vivid reminder that paralytic polio will remain a threat to every community in the nation as long as millions of Americans neglect vaccination, John H. Peterson, chairman of the Crawford County Chapter of the National Foundation, declared today.

"What is happening in Detroit could happen here," Mr. Peterson said. "There are far too many unvaccinated individuals in our country and many others who have had only one or two shots. While expanding our program to take in arthritis and birth defects, we must not lose sight of the threat of crippling polio. It is still with us."

By the end of September more than 650 persons had been stricken with polio in Wayne County (Detroit), half of them paralytic, and more cases were being reported each day, the chapter chairman revealed.

The Wayne County Chapter of the National Foundation has purchased 100,000 shots of Salk vaccine for large-scale group vaccination program.

county and also is supplying large quantities of needles and syringes for use in the program. Chapter volunteers are assisting doctors of the Wayne County Medical Society in the operation of the group centers.

"We have been fortunate in our county this year in that the polio rate has been light," Mr. Peterson said. "However, with many of our children and young adults unvaccinated, we are probably as susceptible to an outbreak as Detroit."

The Wayne County Chapter of the National Foundation is now spending almost \$50,000 per week on the drive of the epidemic, and the chapter estimates that it will need more than \$1,000,000 for aid to patients by the end of the year.

HOME AGENT'S NOTES

"Consumers Marketing Information Cooperating with County Extension Service"

Springtime surplus milk is coming to market now in the form of cheese. And its arrival is most of all a boon for the home parties, as well as school lunch boxes, or any "take-out" meals for Dad, always create a problem for Mom—but its no problem with a supply of cheese on hand.

Cheese buying can be a real adventure for the food shopper. There is a cheese to suit every taste. Some cheeses come from far away lands with interesting flavors to grace the party cheese tray. And others, including some old-time favorites, are both cooking and eating, come from domestic dairies.

Although there are 400 different named cheeses today these are only variations of 20 distinctly different kinds of cheese. American or Cheddar cheese is the kind most widely used in the United States.

There are three main types of cheese - natural, processed, and cheese food spreads. Processed cheese is a natural cheese that has been ground and cooked with certain salts that prevent fat separation. Cheese food spreads are prepared by an additional step: cream, non-fat dry milk, and mineral salts are added to processed cheese to make this product.

Cheese is a real good buy for food shoppers. It provides the same high-quality protein as meat does and provides it economically. An ounce and a half of Cheddar cheese has as much calcium as a cup of milk. You'll get extra dividends from cheese in abundant amounts of calcium and Vitamin A. There is no waste to cheese. It is all edible.

Because of the great number of cheese products it is important that you read the labels on packages. Only by reading labels will you get the greatest value for your money.

Information as to type of cheese, contents and uses for which the cheese is best suited may be found on the label.

Cheddar cheese may be mild, medium or sharp flavored. The sharper flavored cheeses are those which are aged for longer periods of time. These sharp cheeses combine well with bland flavored food to make tasty main dishes. Shredded cheddar is a pleasing addition to tossed salads. And shredded cheese can be cut up with the shortening and added to pie crust to give a new flavor to crust for fruit pies.

For a cheese dip or spread which is a real treat, you might try a three ounce package of cream cheese combined and whipped with two tablespoons of milk or light cream and one teaspoon of dry old fashioned garlic or Bleu cheese dressing mix (this comes in an envelope). Whip until smoothly blended and serve with potato chips or crackers.

Chamber of Commerce Minutes

Crawford County Chamber of Commerce meeting of the Board of Directors, Sept. 26, 1958. Meeting called to order by Pres. Sorenson at 7:05 p. m.

Members present: Rochette, Strong, Johnson, Bond, Janson. Members absent: Wood, Wolff, DuBois.

Motion by Jansen and seconded by Johnson that the minutes of the last meeting be changed to read: "Welcome Bowhunters" window streamers are to sell for 5c each.

Motion by Strong seconded by Rochette that the minutes be accepted as printed with the above corrections.

Treasurers report was made by DuBois.

Motion by Bond and seconded by Johnson that all bills presented be paid.

1. A report of the activities was made by manager of the Association of Great Lakes Outdoor Writers meeting held at Lake Valley.

2. A report of the Lighting meeting conducted by Michigan State University and held at the Legion Post.

3. Plans were outlined to the board of the coming meeting of the Industrial Council. This meeting will be held Sept. 30 at Shoppenon Hotel under the direction of Mr. Ben Clark, fieldman for the state of Michigan Industrial Development Council.

4. Budget. The board, after a preliminary survey, of the Chamber's last years expenditures, are agreed that it is necessary to plan our coming years program of work on a budget of \$7,500.00. The manager reported that dues are being received more rapidly than in previous years; one new member has already joined the chamber and that two members have voluntarily increased their membership.

Motion by Strong and seconded by Rochette that the manager write a letter to George May of the Historical Sites Commission requesting that the new bridge on M-72 East be named the Mason Bridge.

Motion by Rochette and seconded by Johnson that the meeting be adjourned at 8:25 p. m.

A STRANGER IS IN TOWN

He is representing a company considering your town and several other towns as a place to put a manufacturing plant. But he isn't talking about that. He isn't even calling on the chamber of commerce or the town officials; not today, maybe never. They may never know he was here.

He came just to talk to people along the street and get an impression of the town. It may be a good impression or it may not be. That depends on the people he meets. At least he will know what they think of their town.

He will be influenced perhaps by a merchant, a cab

driver, a barber, a service station attendant, a banker — perhaps by you.

Every citizen is a spokesman for his community, a good spokesman or a poor one. Your enthusiasm for your town can attract industry and put money in your pocket. Your lack of enthusiasm will send industry searching elsewhere.

It's just plain good sense to talk up your town, always.

Join hands with your local industrial development organization and the Michigan Economic Development Department to help your community prosper.

The Character Of A Nation . . .

Some time ago an economic organization listed a series of reasons for confidence in the future of this country.

One reason is the growth of population — it has doubled in 50 years and 4 million infants arrive yearly. Another is more jobs — estimates say the 1975 figure will be 22 million ahead of today's. Another is family income, which now runs to \$5,300 a year after taxes, and expected to pass \$7,000 by 1957. Another is more education — it has been doubling every 20 years. Another is more needs — according to the economists, in a comparatively near future we will need \$500 billion worth of new schools, new highways, new homes, new arable equipment.

So it goes, down the list of confidence-breeding facts. They are certainly impressive. But they are all, usually, material. None of them will mean much less values of what we call a spiritual nature are added and maintained.

For instance, it is perfectly possible for the most ruthless dictatorship on earth to produce striking material progress. But the people, no matter how great the output of farms and factories, still are slaves. They get only what their masters decree. They do what they are told, on pain of brutal punishment. The material achievements which everyone expects for this country in the future will have meaning only if the people remain free. The character of a nation cannot be measured by the standard indices of production and distribution and the rest. It is measured in the pride, the self-reliance, and the independence of its people.

Right-To-Work And Liberalism . . .

Proponents of a right-to-work law in California have been accused of falsely giving the impression that the late President Franklin D. Roosevelt favored the right-to-work idea.

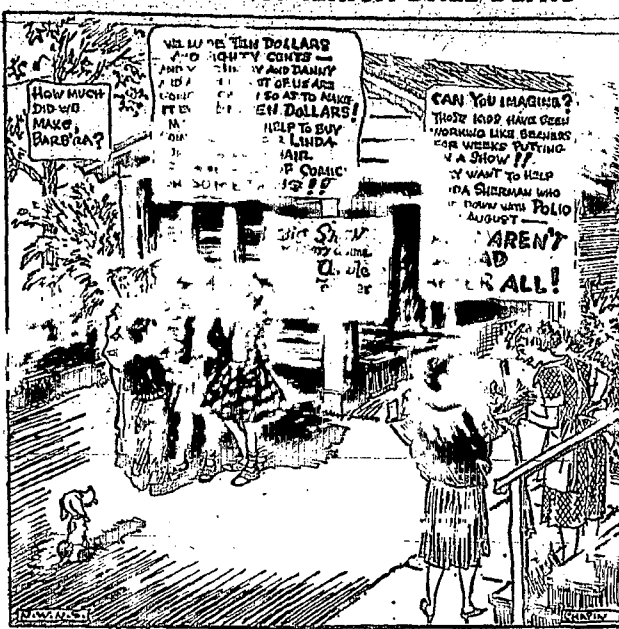

This particular law was not an issue in his time. But it seems only reasonable that so strong a liberal as Mr. Roosevelt would favor giving any man the right to join or not join any organization, as he wished. After all, freedom of choice and freedom from compulsion are cornerstones of liberalism.

Gov't.-Owned Industry Crushes Strike

Labor has the most to lose when the government nationalizes industry.

Recent action by the Mexican government to break a strike involving a jurisdictional fight for control of

the oil worker's union, is a good example. Strikers had demonstrated before the headquarters of Mexico's oil monopoly.

President Adolfo Ruiz Cortines ordered the Labor Ministry to seek quick settlement of the intra-union dissension.

Tear gas was the answer. No more strike—and 50 persons in the hospital.

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVANCE OF 23 YEARS AGO

October 24, 1935

Engineers connected with the installation of Grayling's new waterworks system are loud in their praises for the fine quality of water. And it is now ready for use for all purposes. Temperature tests showed the water as it came from the wells with a temperature of 35 degrees above zero, to be only three degrees above freezing. It is about as near to freezing temperature as water can be and not become ice. The annual meeting of the Grayling Winter Sports Association was held last night at the courthouse. Dr. C. R. Keyport, president, presided and the financial report of the year's activities was read by the treasurer. Election of officers was held for the ensuing year and Roy Trudgeon was elected president. Don Reynolds was elected vice-president, Charles E. Moore, secretary, and Wilfred Laurant was re-elected treasurer.

Miss Marie Brown, who has been suffering with quinsy, was removed to Mercy Hospital yesterday for treatment.

Stanley Stephan, who is employed in Saginaw, spent Sunday visiting at his home down the river.

Attorney Charles E. Moore had as his guests last Thursday and Friday Attorneys John Eblen and Bing Eblen of Detroit. The trio enjoyed bird hunting at Indian River.

Mr. and Mrs. Willis Frasier, Stewart Frasier, and Robert Lucas of Detroit, visited Sunday at the home of Mr. and Mrs. J. L. Martin.

Mr. and Mrs. Frank Serven enjoyed a weekend visit at Mount Rose, guests of Mr. Serven's brother, Earl Serven, and other relatives.

Mr. and Mrs. Holger D. Hanson returned Tuesday from a week's visit with relatives at Flint and Saginaw. Mr. Hanson took advantage of the pheasant hunting down in that country and reports very good luck.

Guests over the weekend of Mr. and Mrs. Herfur Sorenson were Mrs. Sorenson's sister and husband, Mr. and Mrs. R. M. Jamieson and daughters, Joyce and Lois, of Cadillac, and sister, Mrs. O. A. Samuelson and husband, and daughter Eva Marie, of Muskegon. Mrs. Sarah Milne, entertained Sunday with a 4 o'clock dinner at her home at the lake. Guests were Mr. and Mrs. Patrick McKay, Mr. and Mrs. Edward Cierke, Mrs. Elmer Knight, Mr. and Mrs.

ship road, one of the oldest of Michigan institutions, will take place April 1, 1936. At that time county road commissions throughout the state will take over the last parcel of township road mileage remaining in the respective counties. When the township road system is abolished, there will be 77,619 miles of county roads in the state, according to figures furnished by Murray D. Van Wagoner. This represents an increase of 60,317 miles over the mileage in 1931 when the county road commissions had jurisdiction over only 17,301 miles of highway.

The depression brought a death certificate for the township road system. Property values slumped and the township road became a tax burden which the people could not stand. The 1931 legislature wrote the death certificate when it enacted the McNitt law directing the counties to absorb the township roads by 1936 by taking over 20 per cent of this mileage each year.

Mrs. Lorane Sparkes and Miss Betty Jerome drove to Pontiac for the weekend.

Mr. and Mrs. William Granger of Beaver Creek are happy over the arrival of a son, born Friday, October 18th. The new arrival will be known as Leonard.

A fine large menagerie of mice greets Star Route mail carrier Glover when he opens the Alford mail box near Lovells. Mr. Glover says the box contains a family of several mice and that they had been there for some time.

Supt. Hans L. Peterson of the Grayling Hatchery is feeling good over getting a brand new Ford truck. In former times this hatchery has had to use second-hand trucks and this is the first time they have had a new one for their use. They also just received a used 1½ ton pickup truck.

Patrons of Star Route No. 1 have been busy for the past two weeks circulating a petition which

would provide for the delivery of mail each day during the week this winter, as it is during the summer months. Otherwise the mail will be delivered only three times a week as it has been for years. As we understand it, the mail in that district is very heavy and since the frequency of delivery is reckoned by poundage, the petitioners feel that they are entitled to the daily delivery system all the year around. The petition was to have been presented as soon as possible to the State Postal authorities.

Attending the Michigan Road Show at Lansing, that began on Tuesday, are Road Commissioners Harry Souders, Rufus Edmonds, and Chairman Frank Barnett. Superintendent James E. Knibbs and Axel Peterson, Clerk, are also at the show.

Mr. and Mrs. Lawrence Galehouse and the latter's mother, Mrs. Dan Schofield, and Gloria Jean McDonald, returned Monday from a week's visit at Jackson and Battle Creek.

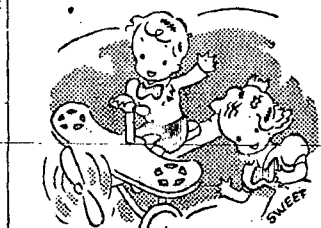

Mrs. Fred Tatro and daughter, Miss Clara Atkinson made a business trip to Gaylord last Thursday.

Mr. and Mrs. Joseph Bielski had as their guest last week Al Dorah, of Detroit, who spent the week hunting.

Mr. and Mrs. Jonas Wirtanen enjoyed a visit last week from their niece, Mrs. Carl Kraus, of Bay City. Mr. Kraus spent the week bird hunting at Johannesburg.

Mr. and Mrs. Devere Wolcott and children, accompanied by Mr. and Mrs. Truman LaVack, drove to Rose City Sunday where they were guests at the home of Truman.

gain are taking the lead in helping to make democracy work - both in the United States and in Canada.

"As President of Kiwanis International, I have read the story of past Ballot Battalion achievements; this record is a source of pride to me, and to all familiar with it. An even greater source of pride, however, is that with all of us feel for our two great governments. Because, in the United States and in Canada, democratic institutions, with their accent on the dignity and importance of the individual, make possible their impartial 'get-out-the-vote' campaign - giving the civic minded individual the opportunity to strengthen his government and his way of life.

"The Ballot Battalion, based as it is on simple good citizenship, and aimed at encouraging the citizen to know the issues, to register and to vote, has been, I am happy to report, enormously successful in the past.

"The Ballot Battalion idea is in keeping with the basic Objectives of Kiwanis International which, in turn, seeks to serve its nations and its host communities. It reflects the desire of Kiwanians, as representatives of American and Canadian people, to keep democracy vigorous and active. I recommend Ballot Battalion, therefore, to all thinking citizens in both our great democracies. For only through informed, intelligent, wide-spread use of the vote can our great democratic governments continue to serve not only our own people but - by example - the people of the whole free world.

In my opinion, Ballot Battalion helps to achieve this vital end!"

P.T.A. Sets Membership Month

They'll Knock On Igloo Doors In Newest State

When more than eleven million P.T.A. members open their annual Membership Enrollment month this October, they will be urged to "knock on every door" to find new members interested in advancing the welfare of children.

Some of those doors may open to the oldest dwellings in the Western hemisphere—stone igloo homes in Alaska, scheduled soon to become the nation's 49th state.

Here, as throughout the U.S., the National Congress of Parents and Teachers will seek to add some half-million new "parents, teachers or friends of children" to what is already the nation's largest voluntary service organization.

Mrs. James C. Parker, of Grand Rapids, Mich., president of the National Congress, cites "the dynamic potential of Alaska, our newest state," as "a comparable to the spirit which has enabled Parent-Teacher associations to contribute so much to the welfare of children."

The activity and scope of P.T.A. activities in the 61-year history of the National Congress are reflected today, Mrs. Parker noted, in the everyday life of Alaskans which ranges in spirit from the quite sophisticated to the "truly frontier."

Alaska's Congress of Parents and Teachers, which became part of the national organization in 1957, today faces problems which can be compared, Mrs. Parker pointed out, with those recorded over the years in tiny American communities or in its largest cities. For it is a land where...

School youngsters may ride for miles in a dog sled to a crowded, poorly-heated classroom, or walk across the street to a modern, several story building.

Where accountants, school

"Home is the child's first school," explains Mrs. James C. Parker, president of the National Congress of Parents and Teachers, whether it's in Point Barrow, Alaska, or the continental U.S. Here, Chicago school children examine picture of Eskimo family standing under strips of caribou meat outside their far north home. In proclaiming October as P.T.A. Membership Enrollment month, Mrs. Parker points out that the movement of P.T.A.'s in Alaska, soon to become the nation's 49th state, parallels the organization's pioneering days in this country.

Teachers and government workers regularly make trips "back in the bush" to hunt and fish for food for their families—and store it in modern freezers.

Where the airplane is the accepted means of travel between cities, but where the number of sled dogs is increasing.

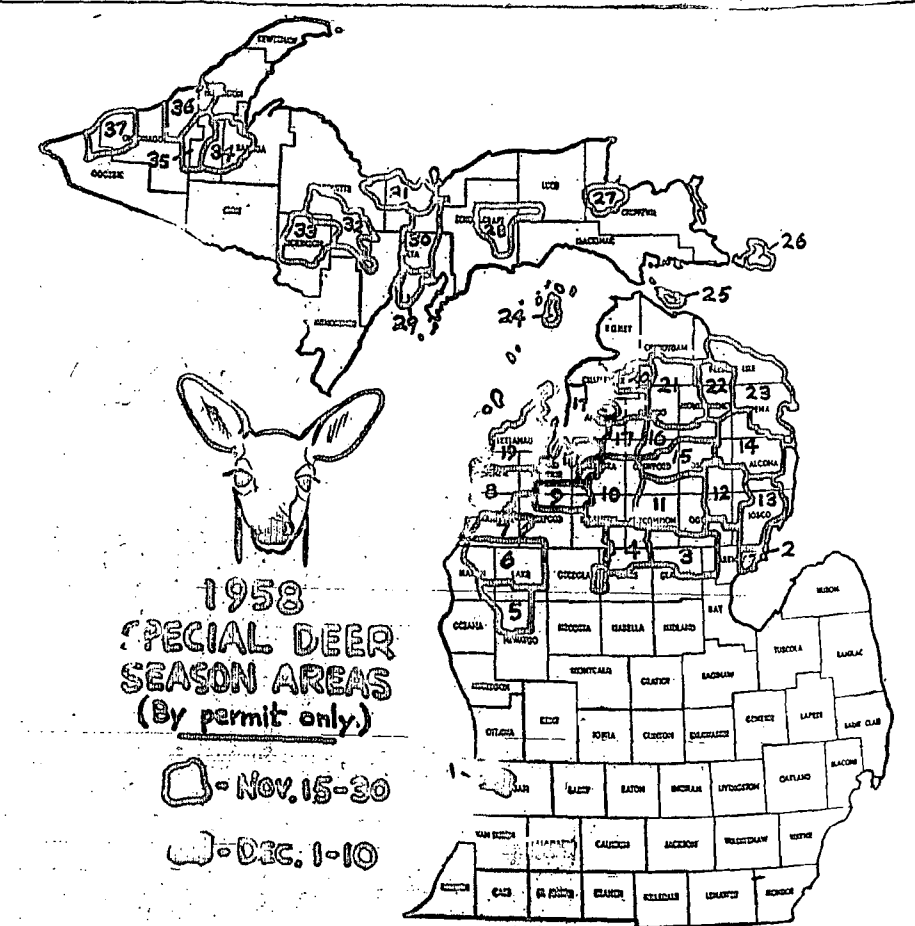

Where teachers in schools with large Eskimo or Indian populations must teach a second language—English—to many of their charges, while other schools, especially those on U.S. army bases, maintain typically American libraries, theaters and bowling alleys as part of their recreation program.

Aims of the National Congress membership month will apply

equally well in this dynamic new state, Mrs. Parker pointed out, as in its member organizations throughout the continental United States, in Hawaii and on American military bases in Europe.

"For the primary purpose of the P.T.A.," she explained, "is to safeguard children, to build for the future in such a way that every community the lights of home may always shine out."

In designating October as the period for membership enrollment, she called upon "every parent-teacher member to knock once more on the door, and at the heart, of every American, so that all of us, working together, may make America—the best possible home for all our children."

Numbered areas on the map show where permits to hunt deer will be allowed to take one deer or any age, either sex, during special deer hunting season this fall. The special seasons were scheduled by the Michigan Conservation Commission. Special more whitetails in 37 deer slay-off areas and map design areas. Applications for special season permits can be obtained from hunting license dealers and must be mailed to Michigan Conservation Department, Lansing 26, not later than midnight, October 10. Each permit is valid for only one area.
